

Health and Safety at Work etc Act 1974

Reporting of Injuries Diseases and Dangerous Occurrences Regulations 1995

Certificate of Exemption No 4 of 2007

1. In pursuance of the powers conferred on it by Regulation 13 (1) of the Reporting of Injuries Diseases and Dangerous Occurrences Regulations 1995 and being satisfied as required by paragraph (2) of that Regulation, the Health and Safety Executive hereby exempts, subject to the conditions set out in paragraphs 2 of this certificate, any person from the requirements in Regulation 3(1)(e) of the Reporting of Injuries Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR) for reporting of dangerous occurrences.
2. The conditions referred to in paragraph 1 of this certificate are that:
 - a. The dangerous occurrences shall have occurred at a site as described in paragraph 6(1)(a)(i) of Schedule 2 of RIDDOR.
 - b. The dangerous occurrence shall have been an unintentional explosion or ignition where a fail safe device or safe system of work functioned so as to prevent any person from being injured in consequence of the explosion or ignition
 - c. The dangerous occurrence shall have occurred to a process or operation that has been registered in advance with HSE as having a failsafe device or safe system of work designed to prevent injury.

Dated this 27th day of April 2007

Dan Mitchell
A person authorised to sign on behalf of the
Health and Safety Executive

Note (not part of the Exemption Certificate)

This exemption is intended to preclude reporting, as dangerous occurrences, those ignitions that occur from time to time at sites licensed to manufacture explosives despite the risk reduction measures that are in place. It applies to ignitions where the safe system of work means that there are no injuries, damage to buildings or plant, but where there may be damage to tooling.

The nature of this exemption means that the dangerous occurrences will occur during the manufacture or processing of explosives, but not during storage only.
